

NATIONAL E-SEMINAR ON EFFECTS OF CLIMATE CHANGE IN THE CONTEMPORARY WORLD

4TH AND 5TH JUNE 2021

Organised By

Centre for Environmental Law
and Climate Change
Faculty of Law
Jagran Lakecity University, Bhopal

In Collaboration with

Centre for Environmental Law,
Education, Research and Advocacy
National Law School of India University
Bengaluru

About the Seminar

Climate Change is one of most contentious topic being debated throughout the world. It has been globally accepted and recognized as a serious threat to human existence. The global community is facing considerable threats from climate change, and incurring considerable costs to cope with the climate impacts. India is one of the fastest growing economies in the world, therefore, there is an imminent need to address the impact of climate change on society to ensure sustainable livelihood particularly in the developing countries like India. In this backdrop, the purpose of this seminar is to provide a common platform for the legal experts, academicians, researchers and students to bring out, discuss and deliberate how the burning issue of climate change is being tackled around the world, and propose solutions relevant to India. The outcome of the seminar will enhance the understanding of participants and provide policy inputs related to the theme.

About Jagran Lakecity University

Jagran Lakecity University, Bhopal is a private university established under Section 2(f) of UGC Act 1956 and is based out of Bhopal, Madhya Pradesh. JLU, Bhopal is one of the fastest growing and one of the most awarded universities of Central India, having practice based pedagogy at its core. Currently, the university is offering 56 degree program to more than 2500 students from 8 countries and 27 states of India. The university has 27 partnerships with top industries and international universities ensuring the students get great exposure both nationally and internationally. JLU, Bhopal is the only participating university from Central India ERASMUS+ programme under the Tuning India Project, funded by the European Commission and is also currently the country chair for Association of Universities of Asia Pacific (AUAP). The University has been bestowed with several prestigious awards, such as 'University of the Year' by Government of Madhya Pradesh for consecutive four years in 2015, 2016 2017 and 2018 and is recognized as a Global League Institution in 2015 at the House of Commons, London, UK. JLU Bhopal has been ranked No.1 Private University in Madhya Pradesh in the year 2016, 2017, 2018 & 2019 by several leading publications.

About NLSIU

The National Law School of India University, the Nation's premier law university, came into existence through a Notification under the National Law School of India University Act (Karnataka Act 22 of 1986). It signified the culmination of efforts by the Judiciary, the Bar Council of India, the Karnataka Bar Council, the Bangalore University and the Government of Karnataka to reform legal education and to establish a centre of excellence for legal education and research in India. The Law School has undertaken many research projects funded by the UGC, the Government of India, the Government of Karnataka, the Department of Women and Child Development, UN agencies, the World Bank, HIVOS, Department of Justice etc. The Projects have served to strengthen research and teaching at the Law School. The National Law School of India University since its inception has taken proactive steps in organizing conferences, seminars, workshops, refresher courses and certificate courses to update academicians, law teachers, students, industry personnel in different subject areas.

About Centre for Environmental Law and Climate Change

“We the People” are the integral part of Environment and today it is important to understand that Human Rights are directly or indirectly affected if our environment degrades. To address these issues, The JLU-Faculty of Law came up with an initiative for the advancement of legal education, research and governance in the dynamic fields of Environmental Law and established Centre for Environmental Law and Climate Change. The goal of our centre is to sensitize the students and each section of the society to think responsibly about the present challenges our environment is facing due to the sudden competitive activities among the various nations. Also, it is a platform which encourages protection of right to environment for the future generations. The aim of our centre is to promote environmental consciousness and conduct legal and interdisciplinary policy relevant research activities, advocate for the causes relating to environment protection, sustainable development and its education through field work. The centre will analyze the public policies of national and international level on climate change, health, water laws, wild life protection, natural resource management, indigenous people and environment impact assessment etc., to check its implementation in real sense. Apart from academic knowledge, to make our law students aware about the technicalities of the area for some possible legal solutions on contemporary environmental challenges there will be events like environmental studies, workshops, panel discussions by prominent environment experts, green law guest lecture series, seminars, conferences, sensitization through collaboration with different stakeholders for research and training program on Climate Change & International Environment Law.

About CEERA

Centre for Environmental Law Education, Research and Advocacy (CEERA), established in 1997 is a benefactor of the Ministry of Environment and Forest (MoEF), Government of Karnataka, the Bar and the Bench in India and abroad. Building an environmental law database, effectively networking among all stakeholders, building up an environmental law community and policy research in the area of environment are CEERA's main objectives. To achieve the aforesaid, CEERA has incessantly and successfully been able to build functional and professional linkages with government agencies and non-governmental organisations in India, the South Asian Region and at International levels.

CEERA has been partnering with Central Pollution Control Board in organising Training programs for the officers of various State Pollution Control Boards and other industry professionals for over seven (7) years. One of the first in India, to be granted a five year World Bank project on Environmental Law capacity building and thereafter being a steady choice for the Ministry of Environment Forest and Climate Change, CEERA has been entrusted with research projects and workshops to impart training to Forest Officers, Revenue Officers, Officers of the Central Pollution Control Board and also of the Government of Karnataka.
