

School of Law, Forensic Justice & Policy Studies

(Decoding Forensics for Public Welfare)

**National Forensic
Sciences University**

Knowledge | Wisdom | Fulfilment

**An Institution of National Importance
(Ministry of Home Affairs, Government of India)**

About the University

National Forensic Sciences University, the erstwhile Gujarat Forensic Sciences University is the brain child of Government of Gujarat. It was established by the Honorable Prime Minister of India Shri. Narendra Modi ji, then Chief Minister of Gujarat in 2009 with a sole objective of creating professional experts in the field of Forensic sciences. At a juncture of spiking number of crimes involving sophisticated technologies and much evolved modus operandi, there was a need for scientists and technocrats. This has been prudently considered by the Government of Gujarat and the University came into existence as a unique and first of its kind academic institution dedicated to Forensic Sciences across the globe.

The National Forensic Sciences University with the status of an Institution of National Importance is the world's first and only University dedicated to Forensic, behavioral, cyber security, digital forensics, and allied Sciences. It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world.

Vision

- To fulfill the acute shortage of forensic experts in the country and the world
- To make the world a better and safer place to live
- To carry out research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science and Criminology

Mission

- Education through investigation
- To impart high quality education of international standards
- To carry out research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science and Criminology

About the School of Law, Forensic Justice and Policy Studies

The School of Law, Forensic Justice and Policy Studies was established with the aim of imparting professional education with a special focus of forensic application in all allied areas of law and policy framework. The school aspires to be the leading provider of forensic justice understanding to all professionals from different areas of governance including justice administration. Through forensic lenses it focuses on crime prevention, crime reduction, crime mapping, speedy and fair dispensation of justice, thereby contributing to overall welfare of people. The school ultimately envisions to produce sound techno-legal experts who can contribute in all areas of governance improving the efficiency leading to peace and happiness among the people through the highest index of Rule of Law and Justice.

Programmes

- **B.Sc.; LL.B. (Hons.)** (Five year integrated programme after 10+2)
- **B.B.A.; LL.B.(Hons.)** (Five year integrated programme after 10+2)
- **LL.B. (Hons.)** (Three year programme after graduation)
- **LL.M. in Cyber Law and Cyber Crime Investigation** (One year programme after three year LL.B or five year integrated law programme)
- **LL.M. in Criminal Law and Criminal Justice Administration** (One year programme after three year LL.B or five year integrated law programme)
- **Post Graduate Diploma in Cyber Law** (One year programme after graduation)

Unique Features

- Innovative curriculum design with perfect blend of theory, practice and clinical exposure
- Nurturing by professionals and practitioners from core expertise area
- Exclusive advanced laboratory facility for better understanding of forensic application
- Learning through simulations
- Exclusive clinical design for all programmes to facilitate experiential learning
- Classroom learning through discourse and reflective pedagogy
- Limited intake of students with individual focus and mentoring
- Career counselling and design of development graph of each student
- Teaching pedagogy is designed to advance professionals in forensic justice and policy making

B.Sc.; LL.B. (Hons.)

(Gandhinagar Campus)

**FIVE YEAR INTEGRATED PROGRAMME WITH SPECIAL
FOCUS ON DATA SCIENCE AND LAW**

B.Sc.; LL.B. (Hons.) is India's first five-year integrated programme with special focus on Data Science and Law and it is one of the first of its kind five-year integrated programme designed to train future technology proficient lawyers who can contribute immensely in technology driven world. This programme aims at integrating data analytics in legal research and practice by employing machine learning, natural language processing, and other state-of-the-art data science methodologies in research across a range of disciplines including studies of crime, consumer bankruptcies, comparative competition law and comparative judicial decisions. Students benefit from comparative study of knowledge and practices in the classroom and through high end laboratories and other experiential learning opportunities.

Why to study this programme?

To discover an array of courses, how artificial intelligence is disrupting and influencing the study of nearly every area of the law: antitrust, business, criminal justice, cyber security, human rights, intellectual property, international law, legal history, securities regulation, social policy, and many more. The programme offers the futuristic cognitive aptitude for law and technology, providing students with opportunities to learn about various sectors within legal tech and the legal services market as a whole through on-campus and off-campus opportunities that draw on the expertise of academics, technocrats, scientists and industry professionals, leveraging the robust University network and industry contacts.

Total Seats - 40

Eligibility

Eligibility Criteria for candidates seeking admission in the First Year of five-year integrated B.Sc.; LL.B. (Hons.) Programme under the School of Law, Forensic Justice and Policy Studies, NFSU

- Candidate has to qualify CLAT exam and admission is based on merit list of CLAT Score of the admission year; and
- Passed Intermediate/Higher Secondary Board Exam (10+2) in Science Stream or Commerce/Arts Stream with Mathematics or Statistics subject with 50% marks or equivalent (45% or equivalent marks for SC/ST and PWD category)

Tuition fees

Rs. 50,000/- per semester

Programme Outline* - B.Sc.; LL.B. (Hons.)

Semester I

- Legal Methods
- Law of Tort and Consumer Protection Laws
- Law and Literature
- Fundamentals of Computer Organization & Embedded Systems
- Basic Programming Concepts using C
- Discrete Mathematics

Semester II

- Legal Language and Writing
- Law and Society
- Jurisprudence
- Object Oriented Programming using C++
- Relational Database Management System
- Statistics

Semester III

- Law of Crimes I
- Constitutional Law I
- Law of Contract I
- Family Law I
- Web Programming
- OS Concepts

Semester IV

- Criminal Procedure Code, Juvenile Justice Act
- Constitutional Law II
- Law of Contract II
- Family Law II
- Computer Network and Security
- Data Warehousing and Data Mining

Semester V

- Company Law
- Code of Civil Procedure Code
- Law of Evidence
- Intellectual Property Law
- Elective – I
R Programming
Programming in Python
- Elective – II
Big Data Analytics Using Hadoop
Image Processing & Biometrics Technology

Semester VI

- Property Law
- Alternative Dispute Resolution
- Law of Taxation
- Cyber Law
- Elective – III
Cyber Security
AI & Machine Learning
- Project based on Data Analytics

Semester VII

- Honors Course I
- Honors Course II
- AI and Law
- Public International Law
- Interpretation of Statutes and Judicial Process
- Labour Law I

Semester VIII

- Honors Course III
- Honors Course IV
- Forensic Science and Law
- Drafting, Pleading, Conveyancing
- Elective Course I
- Labour Law II

Semester IX

- Honors Course V
- Honors Course VI
- Honors Course VII
- Honors Course VIII
- Professional Ethics and Bar-Bench Relations
- Foreign Language

Semester X

- Elective Course II
- Elective Course III
- Elective Course IV
- Elective Course V
- Elective Course VI
- Moot Court, Internships and Legal Aid

Post Graduate Diploma in Cyber Laws

(Gandhinagar Campus)

ONE YEAR DIPLOMA WITH SPECIAL FOCUS ON
CYBER LAWS

With the advancement of Information Communication Technology and the good amount of knowledge shared through internet has encouraged the techno savvy young generation to indulge in cyber-crime. This Cyber Space and its IT infrastructure are very much vulnerable to a wide range of risk stemming from both physical and cyber threats and hazards. As the cyber-crime is borderless and very delegate to handle, it needs special tools and technology in-order to prevent different types of Cyber-attacks and gather digital evidence without any kind of damage. For the admissibility of the evidence in the court, the evidence must be preserved and handled to ensure that it hasn't been changed. Apart from this the rise and evolution of social media has changed the definition of communication and social interaction. Due to the anonymous nature of the Internet, it is possible to engage into a variety of criminal activities with impunity and people with intelligence, have been grossly misusing this aspect of the Internet to perpetuate criminal activities in cyberspace. Hence there is a need for cyber laws. This course will allow the participants to get a vivid knowledge of how crime is committed in the cyber world, the manner in which these crimes are being investigated including evidence collection and examination of the evidences and the laws pertaining to such crimes, handling evidences, maintaining the chain of custody and presenting the facts and findings in the court.

Objectives

- This course will look at the emerging legal, policy and regulatory issues pertaining to cyberspace and cybercrimes.
- To cover all the topics from fundamental knowledge of Information Technology and computer architecture so that the participant can use to understand various aspects of working of a computer.
- To identify the emerging cyber laws, cybercrime & cyber security trends and jurisprudence impacting cyberspace in today's scenario.
- To enable the participants, appreciate, evaluate and interpret the case laws with reference to the IT Act and other Laws associated with the cyberspace.
- To provide vivid knowledge about different types of Digital Forensics such as mobile device forensics, network forensics, cloud based forensics etc., including the standard operating procedures for IO's which will be useful in investigating real-time cases pertaining to cybercrime.
- To provide knowledge related to auditing of computer systems, managing and mitigating risk situations in the organization and techniques for investigating financial frauds.
