International Conference on
Law, Regulations and Public Policy

21st August 2023 | Serrekunda, Gambia

RESEARCH LEAGUES

ICLRPP

2023

Conference Overview

Join us for the highly anticipated International Conference on Law, Regulations and Public Policy (ICLRPP-2023) in Serrekunda, Gambia, on 21st -22nd August 2023. Hosted by Research Leagues, this conference serves as a premier global platform for sharing the latest advancements and developments in these fields. Our goal is to provide a competitive forum for practitioners and researchers from both industry and academia to come together and discuss cutting-edge advances.

The main objective of this conference is to offer attendees the opportunity to share their experiences and ideas on a global scale. Our program will feature industry-led presentations, panel discussions, and keynote speeches from international experts.

Participants, presenters, keynote speakers, and volunteers will have access to world-class infrastructure, resources, and opportunities during the event, helping them achieve their professional goals. Additionally, the conference will provide opportunities for delegates to establish business and research relationships and engage in high-level business and scientific discussions. The conference will also serve as a valuable networking opportunity for future international collaborations in attendees' careers. These events will make significant contributions to your professional knowledge.

About Research Leagues

Research Leagues is a reputable non-profit professional platform that provides accurate and verified information on upcoming international events. Our goal is to enhance the knowledge and skills of professionals and researchers through our intellectually stimulating events, while also contributing to the growth and development of industries such as engineering, medicine, social science, applied science, and management.

Our team consists of highly respected international leaders and professional experts who are dedicated to empowering various sectors around the world. We offer a variety of technical and non-technical seminars, conferences, and workshops worldwide and provide a dynamic platform for researchers to share their findings on national and international stages.

Our main objective is to bridge the gap between academic curriculum and their practical implementation among research scholars and students. Through our constant efforts and dedication, we have become a reputable and respected platform in the industry.

Who should attend?

✤ Research scholars who want to share their studies on national and international forums and seek research collaborations for the future

✤ Educators who want to share their insights on various subjects and gain new knowledge to disseminate among their students.

✤ Industry professionals like CEOs, CMOs, Vice-Presidents, Directors, and GMs should attend our events. It will help them get acquainted with the latest developments in their industries. Such events will also highlight the current and probable problems of their domains. .

Call for Paper

The Research Leagues events aim to release a wide range of articles that provide insight and explore the latest advancements in engineering, medicine, social science, applied science, management etc.

Our conference practices methodological, conceptual, and epistemological diversity. But we prefer articles that effectively engage with current intellectual debates. We expect our participants to contribute innovative ideas, perspectives, and research methods.

Our events can potentially revolutionize the current paradigm and pave the way for growth and development. Those who intend to have their original findings and research published through our events should get an idea from the Author Guidelines, Rules for Presentation, and Instruction sections, before anything else.
