INTRODUCTION

India, in the last decade, has cemented itself as a leader for progressive nations that has displayed courage in handling international crisis and came up with unique solutions and insights. Whether it Covid-19 pandemic or Russia- Ukraine crisis, India has cemented its multilateral and issue-based orientation. India's presidency of the G20 comes at a time when India is playing a central role in navigating such tribulations in international arena. This can be understood from the fact that India has played a critical role in shaping the global decision on a variety of crucial agendas including digital revolution, sustainable development etc.

Amity Law School, Amity University, Uttar Pradesh is celebrating this momentous achievement by organizing Verbum Bellum 3.0 on 'India's Presidency of G20' to spread awareness among the students about the significance of this glorious occasion.

G20 AND INDIA'S G20 PRESIDENCY

The Group of Twenty (G20) is an intergovernmental forum that comprises of nineteen countries. The G20 members together hold about two- third of world's population, around 85 percent of the global GDP and over 75 percent of global trade. The G20 came into existence in 1999 after Asian financial crisis as a forum for finance ministers to discuss global financial crisis. However, after 2007 and 2009 financial crisis, it was upgraded to the level of Heads of State/Government as a "premier forum for international economic cooperation."

India holds the Presidency of the G20 from December 1, 2022, to November 30, 2023. The 43 Heads of Delegations will be participating in the final New Delhi Summit in September 2023. The theme of India's G20 Presidency - "Vasudhaiva Kutumbakam" or "One Earth · One Family · One Future." This theme is drawn from the ancient Sanskrit text of the Maha Upanishad. Basically, the theme highlights the value of all life i.e.- human, animal, plant, and microorganisms - and their interrelationship on the planet Earth and in the wider universe. This theme is specifically significant as India's presidency has come at a time when India has entered its Amrit Kaal i.e its 25 yearlong leadup to 100 years of Independence.

The theme also spotlights LiFE (Lifestyle for Environment), that emphasizes on environmentally sustainable and responsible choices, both at the level of individual lifestyles of citizens as well as in national development. The aim is to globally promote actions that result in a cleaner and greener future.

ABOUT THE EVENT

The objective of the proposed G20 debate competition will be to spread awareness among the students about the significance of this glorious occasion of India's G20 Presidency. Specifically, the aim of the event is to go beyond the confines of classrooms and encourage students to deliberate upon the role of India in creating an inclusive and sustainable world and India's contribution towards this end. The underlying goal of the Verbum Bellum 3.0 on the occasion of India's G20 presidency is to provide a platform to students who are interested in foreign politics and international law as well as in Indian economic, social and political condition.
