ABOUT SCHOOL OF LAW

V The School of Law is established with an objective of developing a new generation of legal professionals through comprehensive and contemporary body of knowledge integrating law with other social sciences. School of Law is committed to shape a new cadre of legal professionals to reach out the society as eminent & highly talented professionals for eradicating the violations & safeguarding human rights. The main objectives of the school of law is to provide an intellectually enhancing, and innovation-based learning interaction platform for students as well as faculties. To create and maintain a lively research environment to promote effective research and concerted work with local, regional, and international communities. To inculcate a sense of responsibility towards the nation and work towards being a part of the system establishing a better nation. To develop among the students, a practical ability to reach utmost ethical, socio-legal and managerial competence in the society.

ABOUT THE SEMINAR

The Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology Avadi, Chennai, Tamilnadu, India is poised to Organise the 1st Two Days National Seminar on “Women, Society and Law. – Issue and Challenges” to mix the ideas of professors, faculty members, advocates, research scholars, law students with the vision of eminent intellects in the concerned subject. This seminar on “Women, Society and Law. Issue and Challenges” (WSL 23) is Stimulated by the great words of Dr Ambedkar stating “I measure the progress of a community with the degree of the progress women have achieved” The development of any Nation is directly proportional to the development of the women in that Nation. In Many parts of the world, the legal landscape has witnessed significant transformation to better align with the principles of gender equality and women’s empowerment. Laws have been enacted to address issues faced by women such as gender-based discrimination in family, at workplace where women participate in fully in all aspects of life and exercise their rights without constraint. However, the relationship between women, society is far from static. It is marked by an ongoing dialogue and evolution driven by changing societal norms, advances in technology, shifts in political climates and emerging challenges. As societies increase their awareness of the way different aspects of identity, such as gender, race, class, and sexuality, combine to shape unique experiences, there is a growing recognition of the need to revisit framework. This reconsideration aims to better address the distinct needs and challenges that different groups of women face.

In essence, this national seminar recognizes that the journey towards women's empowerment and gender equality requires a holistic approach one that engages with history, society, and the dynamic legal landscape. It acknowledges that the complexities of this journey demand collaborative efforts, interdisciplinary insights, and a commitment to fostering change at all levels of society. Through this endeavour, participants can contribute to a more just, inclusive, and equitable world for women, where their rights are upheld, their voices are heard, and their potential is fully realized.
