is organising

International Conference on
Artificial Intelligence and Law
[Hybrid Mode]

Title:

Navigating the Intersection of Artificial Intelligence and Law

Concept Note

About the Faculty

The Department of Law, Aligarh Muslim University is one of the oldest departments in India. The teaching of Law in AMU was introduced in the year 1883. Sir Syed Ahmad Khan, the Founder was greatly impressed by the Programme of Legal Education in British Universities and hence was very keen to have legal education in that pattern in AMU also.

In 1960, the Department of Law came into being into a full-fledged faculty. Credit goes to Late Prof. Hafizul Rehman (who was also the first Dean) to develop a modern curriculum and research programme. In fact, he was the architect of the present Faculty of Law.

Our Faculty of Law, popularly known as the mother Faculty has produced innumerable legal icons who have rendered their services to many reputed Law Faculties in India. Our Faculty is the pioneer Faculty to bring about radical change in the legal education in India to make it modern, socially relevant, economically viable, professionally job-oriented and humanistic. Because of the great efforts of our Faculty teachers and students we are able to prove that the Faculty of Law is a great seat of excellence in terms of academics and higher researchers. Though, we have been amongst the top ten premier Law Faculties for the last many years, this year, the Faculty has reached to the pinnacles of rankings i.e. stood 6th in India despite being a part of University where there is always shortage of infrastructure and paucity of funds.

About The Conference

Theme: "*Navigating the Intersection of AI and Law* "

A wide range of legal and technological experts came together for the International Conference on AI and Law, which was organized by the Faculty of Law at Aligarh Muslim University, to discuss the complex interrelationship between artificial intelligence and the legal domain. The conference's theme, "Navigating the Intersection of AI and Law " sought to analyze the complex interactions that exist between these two fields. A wide range of topics were probably covered during the event, including the

moral dilemmas arising from the use of AI in legal systems, the ways in which AI is changing the legal profession, and the difficulties that these technological developments present in maintaining justice's fairness and equity. It also served as a forum for discussion of the changing legal frameworks required to control the spread of AI technology in the legal industry. The conference functioned as an essential center for exchanging perspectives, promoting multidisciplinary discussions, and creating avenues to negotiate the intricacies present at the intersection of artificial intelligence and law. Through dissecting this complex web, the players probably sought to steer the needle in a direction that harmonizes technology with legal norms, guaranteeing a mutually beneficial relationship that preserves the core values of fairness and moral behavior in the developing field of AI-powered legal systems.

The International Conference revolving around the subject matter i.e. the AI and the Law. The conference focuses on the following points and these are as follows:

- Strategic Integration of AI in Legal Practices
- Navigating Ethical Frontiers
- Regulatory Strategies for the AI-Driven Legal Future
- Human-AI Synergy in Legal Practice
- Shaping the Future of Legal Education
- AI and Access to Justice
- Interdisciplinary Collaboration for a Sustainable Legal Future
- Showcasing Innovation

By centering the conference around the theme of " Unraveling the Tapestry: Navigating the Intersection of AI and Law," participants can engage in discussions that span technology, ethics, regulation, education, access to justice, and collaborative efforts to shape a balanced and sustainable future for AI and law.

Purpose of the Conference

The primary purpose of the AI & Law conference is to serve as an educational platform offering insights into the fundamental principles and intricate challenges arising at the intersection of artificial intelligence and the legal field. By bringing together students, faculty members, and practitioners, the conference aims to provide a comprehensive overview of the evolving dynamics within this domain.

Through presentations delivered by esteemed academicians, attendees gain exposure to cutting-edge research, case studies, and theoretical frameworks. These presentations likely delve into various facets, including the ethical considerations surrounding AI

implementation in legal systems, the transformative impact of AI technologies on legal practices, and the complexities of regulating AI within the context of the law.

Moreover, the conference serves as a space for knowledge exchange, encouraging interdisciplinary discussions and collaborations among participants. By showcasing the work of notable experts, it offers attendees a deeper understanding of the implications, challenges, and opportunities that arise from the integration of AI in legal contexts.

Ultimately, the conference seeks to equip its audience—students, faculty, and practitioners alike—with a nuanced understanding of the intricate relationship between AI and law, fostering a dialogue that navigates the ethical, legal, and technological landscapes, shaping the future of legal practice in an AI-driven world.

Target Audience

The target audience for this conference is students, faculty, and practitioners of law, as well as anyone who is interested in learning more about artificial intelligence and law.

By the end of this conference, participants will:

- Have a better understanding of AI and law, its components
- Identify the main challenges facing commercial AI space activities today
- Discuss the latest developments in the field of commercial space law

Tentative Program

2.30 pm (9 a.m. GMT/5 p.m. SGT onwards)

Inaugural Welcome Address: Hon'ble Dean Sir

Followed by Keynote Speaker's Address

23/01/2024

Prof. Andrew Murray, Professor of Information Technology Law, Director, LSE Law Technology and Society Group, Academic Director of LSE Online Programmes.

Prof. Zaid Hamzah, AI & Data Practitioner, Executive Education Fellow
School of Computing, National University of Singapore.

Prof. Subhajt Basu FRSA Chair in Law and Technology, Co-Director
PGR Studies, Editor-in-Chief IRLCT Fellow, ACCP, School of Law, University of Leeds,
London.

24/01/2024

Prof. Christopher Marsden, Professor of Artificial Intelligence (AI),
Technology, and the Law, Monash University, Australia, Director of the Digital Law
Group at Monash, and Associate Director for Global Governance of the Data Futures
Institute.

Dr. Filiberto E. Brozzetti, Assistant Professor (Research), Department of
Law AI, Law and Ethics, LUISS Guido Carli University

Dr. Luke Stark, Assistant Professor, Faculty of Information & Media
Studies (FIMS), Western University, London.

Call for Papers

Call for Papers: AI and Law Conference 2024

We are pleased to announce the Call for Papers for the AI and Law Conference 2024, a premier international event dedicated to exploring the intersection of artificial intelligence and the law. The conference aims to bring together legal professionals, scholars, technologists, and policymakers to discuss and shape the future of AI in the legal landscape.

Some of the suggested themes which can be used to produce the article or the research papers.

1. Foundations of AI in Legal Practices:

- Operational efficiency through AI
- Transformative impact on legal research

2. Ethical Considerations in AI:

- Ensuring fairness and accountability
- Ethical considerations in AI development

3. Regulatory Strategies for the AI-Driven Legal Future:

- Navigating global regulatory landscapes
- Addressing legal challenges posed by AI

4. Human-AI Collaboration and Shaping the Future:

- Augmented intelligence in legal practice
- Integrating AI into legal education

5. AI and Access to Justice:

- Improving access for underserved populations
- Building trust in AI-driven legal processes

6. Interdisciplinary Collaboration for a Sustainable Legal Future:

- Fostering collaboration between legal experts and technologists
- International initiatives shaping a harmonized global approach

Submission Guidelines:

- We invite original research papers and articles relevant to the conference themes.
- Submissions should be in English and adhere to the specified format guidelines.
- All submitted papers will undergo a rigorous peer-review process.

Important Dates:

- Deadline for Abstracts: 15/12/2023
- Submission Deadline: 31/12/2023
- Notification of Acceptance: 15/01/2024
- Conference Dates: 23-24, January 2024

How to Submit:

Please make submissions via this mail: intconlex.amu@gmail.com

Join Us: Be part of a vibrant community at the forefront of AI and law discussions. Share your expertise, engage in meaningful conversations, and contribute to shaping the future of the legal profession.

For inquiries, please contact intconlex.amu@gmail.com, +91-9997235930.

We look forward to your contributions!

Feel free to customize the details such as submission deadlines, conference dates, and contact information to fit your specific event.
