

4TH VIRTUAL GLOBAL SUMMER SCHOOL ON LAW AND ETHICS OF ARTIFICIAL INTELLIGENCE

22nd June- 14th July 2024

*Weekend only sessions

Organised by: International Society of
Artificial Intelligence and Digital Technology

Information: www.knowledgesteez.com

ABOUT SUMMER SCHOOL

Invention of big data, machine learning and artificial intelligence system has opened the Pandora box of opportunities and challenges to the world. Every significant technological breakthrough has the potential to either advance or harm the society. The technology measurement and analysis capacities of Artificial Intelligence can very well help in resolving some of the biggest transportation, humanitarian assistance and public health problems, including supporting significant changes in clinical diagnosis and treatment, integrating transport and communal growth, and exacerbating the dangers of climate change. The first challenges that we face with artificial intelligence in any sector is its sophisticated technological development and comparatively slower development of legal regime in comparison to artificial technology.

The Summer School is being conducted by eight universities/ organisations from across the globe and the sessions listed on the next page on various aspects of Artificial Intelligence shall be taken by experts of the field. The concept of Artificial Intelligence has gained attention of the scholars in the past and it is crucial to understand the legal aspect of Artificial Intelligence. The Summer School will provide an opportunity to all the participants to understand various aspects of Artificial Intelligence and discuss their suggestions and queries with the experts of the field. It will also act as a platform for scholars, academicians, professionals and students from across the globe to come together and discuss the challenges posed by Artificial Intelligence and the probable solutions according to them. The participants will also gain insight of the concept from the perspective of various jurisdictions.
