ICITA 2024
CONFERENCE

18th International Conference on Information Technology and Applications
17-19 October 2024
Sydney, Australia

Dear Recipient,

We cordially invite you to attend and submit your papers for the 15th International Conference on Information Technology and Applications (ICITA 2024) that will be held at The Hilton, Sydney, Australia, on 17 - 19 October 2024.

The conference is an annual event and recognized as one of the major series of conferences in Information Technology. ICITA continues to retain its tradition of being a high-quality conference. The event will open an opportunity for academics and industry professionals worldwide to exchange their knowledge of the state-of-the-art research and development in information technology and applications.

The purpose of ICITA is to provide a platform for academics and professionals in computer technology to publish, present, meet, exchange ideas, and establish professional networks. It is a forum for specific disciplinary research, as well as on multi-disciplinary studies.
Topics for publication and presentation can include, but are not limited to the following research and development areas/fields:
Conference Tracks

- Cloud computing
- Business Process Engineering
- Machine learning
- Evolutionary Computing
- Big Data Analytics
- Internet of Things and Cyber-Physical Systems
- Information and Knowledge Management
- Computer Vision and Image Processing

- Computer Graphics and Games Programming
- Mobile Computing
- Ontology Engineering
- Software and Systems Modelling
- Human Computer Interaction
- Online Learning / E- Learning
- Computer Networks
- Web Engineering

Authors are kindly invited to submit their formatted full papers including results, tables, figures, and references. Please, read authors guidelines carefully.

18th International Conference on Information Technology and Applications
17-19 October 2024
Sydney, Australia

Types of Submissions and Decisions

The following types of papers can be submitted:

- Finished or consolidated R&D works, to be included in one of the Conference themes. These papers are assigned a 10-page limit.
- Ongoing works with relevant preliminary results, open to discussion. These papers are assigned a 7-page limit.
Submitted papers must comply with the format of Lecture Notes in Network Systems Series (see Instructions for Authors at Springer Website), be written in English, must not have been published before, not be under review for any other conference or publication and not include any information leading to the authors' identification. Therefore, the authors' names, affiliations and bibliographic references should not be included in the version for evaluation by the Program Committee. This information should only be included in the camera-ready version, saved in Word or Latex format and also in PDF format. These files must be accompanied by the Consent to Publish form filled out, in a ZIP file, and uploaded at the conference management system.

All papers will be subjected to a "double-blind review" by at least three members of the Program Committee. Based on Program Committee evaluation, a paper can be rejected or accepted by the Conference Chairs. In the latter case, it can be accepted as the type originally submitted or as another type. Thus, full papers can be accepted as short papers or poster papers only. Similarly, short papers can be accepted as poster papers only.

Poster papers and Company papers are not published in the Conference Proceedings, being only presented, and discussed. The authors of accepted poster papers should build and print a poster to be exhibited during the Conference. This poster must follow an A1 or A2 vertical format. The Conference includes Work Sessions where these posters are presented and orally discussed, with a 7 minute limit per poster.

The authors of accepted Full papers will have 15 minutes to present their work in a Conference Work Session; approximately 5 minutes of discussion will follow each presentation. The authors of accepted Short papers and Company papers will have 11 minutes to present their work in a Conference Work Session; approximately 4 minutes of discussion will follow each presentation.

Publication and Indexing

To ensure that a full paper or short paper is published, poster paper or company paper is published, at least one of the authors must be fully registered by the 1st of June 2021, and the paper must comply with the suggested layout and page-limit. Additionally, all recommended changes must be addressed by the authors before they submit the camera-ready version.

No more than one paper per registration will be published. An extra fee must be paid for publication of additional papers, with a maximum of one additional paper per registration. One registration permits only the participation of one author in the conference. Full and Short papers will be published in Proceedings by Springer, in Lecture Notes in Network System series. Poster and company papers will not be published, just presented in the conference. Published Full and Short papers will be submitted for indexation by ISI, SCOPUS, and Google Scholar, among others, and will be available in the SpringerLink Digital Library.

Registration is Free! The ICITA 2024 organizing committee in consideration of the Covid-19 pandemic has decided to exempt the registration fee for attending the conference this year.

Important Dates:
Conference paper/ contribution deadline: 20th June 2024
Conference paper notification: 20th Aug 2024
Camera Ready Submission (Strict):   25th Aug 2024

For more details,visit: https://www.icita.world

Looking forward to meeting you all at ICITA 2024.
