Empowering Change towards Sustainability and Equality in Higher Education

Introduction:

Education for sustainable development (ESD) equips learners of all ages with the knowledge, skills, and values to address interconnected global challenges to make informed decisions and take individual and collective action to change society and care for the planet.

"Empowering Change towards Sustainability and Equality in Higher Education " is an Executive Development Program (EDP) designed to provide participants with a comprehensive understanding of four critical Sustainable Development Goals (SDGs): SDG 4 (Quality Education), SDG 5 (Gender Equality), SDG 10 (Reduced Inequalities) and SDG 16 (Peace, Justice, and Strong Institutions). These goals are essential for fostering inclusive, fair, and sustainable societies. This course aims to equip participants with the knowledge, skills, and practical strategies needed to advance these goals in their communities and professional fields.
