About Moot Court Society

To provide a platform for law students across the country to sharpen their analytical and argumentative skills which focus on understanding, historical research, analytical ability, logical thinking, presentation and judgment.

To develop confidence in dealing effectively with the wide array of difficult situations faced during the courtroom process.

To enhance teamwork and leadership qualities among the law students.

Mooting is one of the most essential skills for any law professional. Moot courts or mock trials are usually based on hypothetical cases, involving emerging or unsettled areas of law. Law students, who participate in these activities, are given the opportunity to develop their research, legal writing and oral advocacy skills in a mock courtroom setting. Additionally, moot court presentation inculcates professional legal etiquettes in the students which equip them to adapt with courtroom practices. A Moot Court Competition provides a platform to bring in different perspectives of the same case before the judges and audience. Moot Court Competition, therefore, is the process where a student can analyze a given problem with its proper legal background, make research about its historical supportive articulations and demonstrate the same before a panel of judges after proper arguments in an ethical and professional manner. It brings the Law graduates close to the real courtroom environment where they are called upon to solve the problems in a short span of time.

A moot court is a replica of real court proceedings. The purpose of moot court competitions is to make students aware about the court proceedings related to disputes between parties. This competition is often organised in law schools for students who wish to pursue their careers as litigators and Arbitrators. This practice develops legal skills, research acumen and speaking skills. The process of mooting is not the same as public speaking or debating, moot courts are primarily interactive in nature and there is cross-questioning.
