CONCEPT |

Climate change poses a significant threat to the global environment and economy, demanding comprehensive and coordinated action. Legal frameworks and economic policies are pivotal in driving effective climate change mitigation and adaptation efforts. However, the complex interplay between legislation and economic impacts presents numerous challenges that require in-depth analysis and understanding. In response to this need, the current initiative on an edited book titled "Legal Frameworks and Economic Impacts of Climate Change Mitigation and Adaptation" has been initiated to explore these critical issues.

CALL FOR PAPERS

Lloyd Law College invites submissions for its upcoming edited book titled “Legal Frameworks and Economic Impacts of Climate Change Mitigation and Adaptation”. Researchers, practitioners, and scholars are encouraged to contribute original papers on topics related to climate change legislation, environmental law economics, and related areas. Selected papers will be published in the edited book with an ISBN number, providing a platform for scholarly contributions to influence legal frameworks and economic policies in climate change mitigation and adaptation.

This comprehensive overview underscores **Lloyd Law College’s** esteemed history, accolades, and dedication to advancing legal education in India, underlining its commitment to legal research.

OBJECTIVE

The main objective of this publication is to discuss and analyze the various dimensions of climate change legislation and its economic implications. By examining existing laws, assessing economic impacts, highlighting case studies, and promoting environmental justice, this book aims to provide valuable insights and recommendations for policymakers, academics, and practitioners. The ultimate goal is to foster a deeper understanding of how legal and economic frameworks can be effectively integrated to address the urgent challenge of climate change.
