INTERNATIONAL YOUNG SCHOLARS FORUM ON BUSINESS AND LAW 2025

23RD FEBRUARY 2025

TARGET AUDIENCE

Law and Management faculty with less than 10 years of teaching and industry experience

CONFERENCE OVERVIEW:

The inaugural International Research Forum on Business and Law aims to create a vibrant platform for aspiring academicians and researchers to showcase their innovative ideas and engage in constructive dialogue on contemporary challenges at the intersection of business and law. With a focus on fostering interdisciplinary collaboration and knowledge exchange, the forum welcomes research proposals from diverse perspectives within the broad domains of business and law.

SUB THEMES

BUSINESS:

- Sustainable Business Practices and the Law: Exploring the legal landscape for environmentally and socially responsible business models.
- Innovation and Entrepreneurship in a Digital Age: Examining the legal challenges and opportunities presented by disruptive technologies.
- Financial Regulation and its Impact on Businesses: Analyzing the evolving regulatory framework and its implications for financial institutions and markets.
- Data Privacy and Security in the Business Context: Navigating the complex legal landscape surrounding data collection, usage, and protection.
- Cross-Border Trade and Investment Disputes: Addressing the legal challenges and strategies for resolving international business disputes.
- Artificial Intelligence and the Future of Work: Exploring AI's legal and ethical implications on employment, skills, and workforce dynamics.
- The Gig Economy and Legal Frameworks: Examining the legal status and regulatory challenges associated with the growing gig economy.

SUB THEMES

BUSINESS:

- **Blockchain Technology and its Implications for Business:** Understanding the legal implications and opportunities of blockchain technology in various industries.
- **Corporate Social Responsibility and Governance:** Examining the legal framework and best practices for responsible corporate governance and social impact.
- **Human Rights and Business in the Global Context:** Exploring the legal obligations and challenges for businesses operating in different countries with varying human rights standards.

LAW:

- **Access to Justice and Legal Technologies:** Examining how technology can improve access to justice and legal services for all.
- **Alternative Dispute Resolution Mechanisms:** Promoting the use of efficient and effective alternatives to traditional litigation.
- **Environmental Law and Sustainability:** Analyzing the legal framework for environmental protection and sustainable development.
- **Cybersecurity and Data Protection Law:** Examining the legal framework for addressing cyber threats and protecting personal data.

SUB THEMES

LAW:

- Intellectual Property Law in the Digital Age: Exploring the legal challenges and opportunities surrounding intellectual property in the online world.
- Competition Law and the Regulation of Digital Platforms: Analyzing the legal framework for ensuring fair competition in the digital economy.
- Labor Law and the Right to Work: Examining the legal framework for protecting workers' rights in an evolving employment landscape.
- International Law and Global Governance: Exploring the challenges and opportunities for promoting peace, security, and cooperation in the international system.
- Law and Society: Emerging Trends and Challenges: Analyzing the impact of legal developments on different social and cultural contexts.
- Consumer Protection in the Digital Age: Analyzing the legal framework for protecting consumers in the online marketplace.

ELIGIBILITY

- Applicants must be full-time law or management faculty with less than 10 years of teaching and industry experience.
- No more than three participants will be selected from each country. Individuals or teams of two can submit proposals.

SUBMISSION GUIDELINES

- Research proposals should be in English and not exceed 1,000 words. Proposals should clearly outline the research question, methodology, theoretical framework, expected findings, and contribution to the field.

Submissions must be submitted by 30.01.2025.

➤ REGISTRATION FORM

SELECTION PROCESS

A panel of renowned experts in law, business, and academia will evaluate proposals based on the following criteria:

- Originality and significance of the research question;
- Rigour of the proposed methodology;
- Soundness of the theoretical framework;
- Potential contribution to the understanding of contemporary business and law issues.

CONFERENCE CONTENT

- Selected participants will present their research ideas in online sessions.
- Interactive sessions will facilitate discussions and feedback from peers and experts.
- Workshops and keynote presentations by distinguished scholars will enhance knowledge and networking opportunities.

AWARDS

- "Best Research Idea" awards will be conferred in both Law and Business Studies domains.
- Winners will receive recognition and potential publication opportunities.
