SUMMER SCHOOL

## Cultures of Adaptation: Theories and Methodologies

20 April to 27 April 2025

In the face of escalating climate challenges, understanding how diverse communities adapt to environmental changes is crucial. By bringing together interdisciplinary perspectives, this summer school on Cultures of Adaptation explains — why certain communities develop specific adaptation responses —and how the cultural, social, and institutional factors shape these responses

### Key Themes

Theories related to climate adaptation and their applicability.  
Transdisciplinary methodologies.  
Policies and programs for adaptation.  
Geographies of cultures of adaptation.
