

CALL FOR CHAPTERS: BOOK ON JUSTICE IN TRANSITION: LEGAL TRANSFORMATION IN THE DIGITAL AND CLIMATE ERA

Amity Law School, Amity University Punjab is accepting submissions for a Call for Chapters for a Book on Justice in Transition: Legal Transformation in the Digital and Climate Era, Submit the Paper by 07th July, 2025.

ABOUT THE BOOK

Justice in Transition: Legal Transformation in the Digital and Climate Era explores the evolving dimensions of justice as legal systems worldwide grapple with the twin forces of digital disruption and climate change. This edited volume brings together multidisciplinary perspectives on how law is being reshaped by emerging technologies, environmental imperatives, and socio-economic transitions. From climate litigation, ESG compliance, and data governance to AI liability, digital human rights, and evolving models of judicial delivery, the book provides a timely and comprehensive examination of legal transformation in an era of uncertainty and innovation. It seeks to provoke critical dialogue, encourage reform-oriented scholarship, and offer actionable insights for policymakers, practitioners, and academicians navigating the shifting contours of 21st-century justice.

THEMES AND SUB-THEMES

Legal Transformation in the Digital and Climate Era

SUB-THEMES

Including but not limiting to:

1. Climate Justice, Sustainability & Environmental Law

- Legal obligations under the Paris Agreement and beyond
- Climate-induced displacement and environmental refugees
- ESG compliance, green taxation, and corporate environmental responsibility
- Legal frameworks for carbon trading, renewable energy, and biodiversity protection
- Role of courts and tribunals in advancing climate justice

2. Technology, AI, and the Future of Legal Systems

- Legal personhood of AI and liability in automated systems
- Regulation of blockchain, cryptocurrencies, and smart contracts

- Data privacy, trans-jurisdictional data transfers & digital surveillance
- The role of AI in courts: Predictive justice, risk scoring & algorithmic fairness
- Legal implications of emerging technologies (Neurotech, Quantum, Metaverse)

3. Human Rights in the Age of Transition

- Digital rights as human rights: Freedom of expression & internet shutdowns
- Protection of vulnerable populations in climate and tech transitions
- Surveillance vs privacy: Balancing national security with civil liberties
- Gender justice, reproductive rights, and digital gender-based violence
- Right to health and access to medicines in light of climate and biotech shifts

4. Corporate Law, Compliance, and Economic Transformation

- Legal transformation in global corporate governance & anti-corruption laws
- Role of law in sustainable business models & impact investing
- Cross-border M&A in a climate-affected economy
- Taxation and digital economy: Reimagining fiscal policy for tech giants
- Trade, WTO & ESG-compliant supply chain regulation

5. Justice Delivery & Judicial Innovation

- Online dispute resolution (ODR) and virtual courts in a post-pandemic world
- Judicial activism in climate and tech-driven transitions
- Legal aid and access to justice in digital and rural margins
- AI-enabled tools in evidence evaluation and e-filing systems
- Delays in environmental litigation and fast-track judicial remedies

6. Labour, Migration & Transitional Legal Frameworks

- Gig economy, platform workers, and evolving labour rights
- Migration due to climate and automation: Legal protections and gaps
- Refugees and stateless persons: From conflict to climate-induced displacement
- Social security, occupational health, and rights in new-age work environments

7. Intellectual Property in the Digital and Biotech Era

- Patentability of AI-generated inventions and climate-tech innovations
- Traditional knowledge and IPR: Protection in the face of exploitation

- Copyright, NFTs, and challenges of deepfakes in a digital economy
- Compulsory licensing and public interest exceptions during global crises

8. Constitutionalism, Ethics & Global Legal Order

- Balancing constitutional rights with technological progress
- Climate constitutionalism and environmental rights jurisprudence
- Ethical dimensions of digital governance and AI regulation
- Role of international law in advancing transitional justice
