Mr. R. VENKATARAMANI,
Senior Advocate
Ld. Attorney General of India, Govt. of India

with

PRESIDED OVER

Prof. Dr. V.K. AHUJA
Director
Indian Law Institute

Knowledge Partner :

ABOUT THE CONFERENCE

A seminar on "Artificial Intelligence and Constitutional Validity" would discuss the complex interplay between AI and fundamental rights, exploring how AI impacts constitutional principles like privacy, equality, and due process. It would cover topics such as algorithmic bias, accountability in AI governance, and the need for regulatory frameworks to balance innovation with constitutional safeguards. The goal is to analyze how existing legal structures can adapt or require new interpretations to ensure AI respects and upholds constitutional values.
