ABOUT THE SDP

- This specially curated 5-days online program is an endeavour by Knowledge Steez Edu Hub to introduce the concept of Research in academics for students and to foster easier research and paper writing process.
- Since they are the bearers of the future, it is necessary that they be taught the best practices and Ethics to be used in Research more than what is known to them.
- The concept of 'ease in research' has to be more of solution and practical based rather than problem and theoretical based.
- It is essential to teach and impart knowledge about the same to the students since they are tomorrow's teachers and should grow to become excellent Researchers as well.
- In India, for faculty in Institutions there are many Faculty Development Programs (FDP) and for Executives - Executive Development Program (EDP) but no SDP for students.
- Therefore Knowledge Steez Eduhub attempts to introduce students to the core aspects of research paper writing—from selecting a topic to publishing in reputed journals so that they have better career growth and future prospects.
