BUSINESS ♦ TECHNOLOGY ♦ HEALTHCARE

## XIII NATIONAL CONFERENCE

### Industry 5.0

Shaping an Inclusive and Responsible  
Future with the 4Es  
**Empathy, Ethics, Equity, and Ecology**

30<sup>th</sup> - 31<sup>st</sup> January 2026

### About the Conference

From mechanization in Industry 1.0 to digitalization in Industry 4.0, each industrial revolution has transformed productivity and connectivity but also brought challenges such as inequality, climate impact, and ethical dilemmas. Industry 5.0 is not a substitute for Industry 4.0 but a necessary evolution that adds value by placing humans back at the center, ensuring that technology complements rather than replaces human creativity, empathy, and ethics. By aligning innovation with sustainability, inclusivity, and resilience, Industry 5.0 paves the way for industries to balance Empathy, Ethics, Equity, and Ecology. The XIIIth National Conference will serve as a platform to deliberate on how this paradigm can be harnessed to address pressing societal and organizational challenges while creating a more human-centric and sustainable future.

### Award and Certification

- Selected high quality papers after presentation will be awarded as Best Paper. Three Best paper will be awarded with **cash prize Rs 3000**.
- The papers accepted and presented during the conference will receive a certification. E- certificates will be mailed to the presenters/participants of conference to their respective mail id.
