ABOUT CONFERENCE

The swift progress of Generative Artificial Intelligence (GenAI) is reshaping how societies create, communicate, govern, and make decisions. By generating human-like text, images, and audiovisual content, GenAI has become a transformative force with significant potential for economic growth, social advancement, and improved governance. However, its increasing integration into daily life also raises critical concerns regarding privacy, accountability, transparency, equality, and freedom of expression. The use of large datasets for training AI systems challenges traditional notions of consent, data ownership, and information privacy. Additionally, deepfakes, algorithmic bias, misinformation, and automated surveillance pose serious risks to democratic institutions and fundamental human rights. The International Conference on “Generative Artificial Intelligence and Human Rights: Navigating Privacy, Accountability, and Digital Governance in a Globalized World” aims to provide an interdisciplinary platform for scholars, policymakers, legal professionals, researchers, and civil society members to discuss these challenges and develop ethical, inclusive, and accountable AI governance frameworks.

SUB THEMES

Human Rights Frameworks
for AI Governance

Accountability under AI
specific Legislation

Generative AI, Democracy,
and Freedom of Expression

AI, Cyber security, and
Digital Safety

Intellectual Property and
Ownership in the AI Era

ABOUT THE INNOVATIVE INSTITUTE OF LAW

Innovative Institute of Law, affiliated with Ch. Charan Singh University, Meerut and approved by the Bar Council of India (BCI), is a premier legal education institution dedicated to shaping competent, ethical, and socially responsible legal professionals. We are driven by the vision of delivering transformative legal education that bridges the gap between theory and practice.

Our institution combines academic excellence with practical training, preparing students for careers in advocacy, judiciary, corporate law, academia, civil services, and legal policy-making.

The Institute is NAAC - accredited and is committed to continuous academic improvement and outcome-based education. Our faculty includes experienced academicians, practicing advocates, and legal scholars who foster a research-oriented, critical-thinking environment.

ABOUT MEDIA AND KNOWLEDGE PARTNER

Lawctopus, started in 2010, is India's leading online media and education portal for law students and young lawyers. The media vertical, Lawctopus.com, reaches to nearly 4 lakh readers every month. The ed-tech vertical, Lawctopus Law School (LLS), teaches more than 2000 learners every year. With a rating of 93.2/100, LLS' practical, online courses teach skills such as legal research, contract drafting, IP law, and more. On the media site, content such as law-related conferences, workshops, internships, jobs, and career advisory pieces and blogs make Lawctopus the young lawyer's go-to friend and guide!
