ABOUT THE FORUM

The rapid advancement of Artificial Intelligence (AI) and digital technologies has transformed the cybersecurity landscape, creating new opportunities as well as emerging threats such as deepfakes, AI-driven cyberattacks, identity manipulation and data breaches. These developments raise critical concerns regarding digital security, privacy, accountability and the adequacy of existing legal frameworks.

OBJECTIVES

The proposed Student-Scholars Dialogue aims to:

- Examine emerging cybersecurity threats in the age of Artificial Intelligence.
- Encourage interdisciplinary dialogue between Law, Technology, Policy and Governance.
- Analyse the adequacy of existing cyber laws in addressing emerging threats.
- Discuss questions of AI accountability, liability and responsibility

THEME

" Don't Make It Easy for Them: Think Smart, Stay Secure in the Age of AI and Cyber Threats"

Proposed Sub-Themes

Participants may present their research, ideas, policy perspectives or case analyses under any of the following sub-themes:

- AI-Powered Cybercrime: The New Architecture of Digital Threats
- Deepfakes, Digital Deception & the Crisis of Trust
- AI Liability & Accountability in Cybersecurity
- Data Protection, Privacy & AI Surveillance
- Cybersecurity & Critical Infrastructure in the Age of AI
- Cyber Warfare, National Security & the Changing Nature of Conflict
- Children, Students & Digital Safety in the AI Era
- AI Governance & the Future of Cyber Law
- AI as a Cybersecurity Solution: Opportunities & Ethical Challenges
- Towards a Global Framework for AI & Cybersecurity

Suggested Format

The Forum may be structured as an interactive Student–Scholars Dialogue, rather than conventional conference

Session I-Opening Dialogue and Panel Discussion

An introductory expert Panel Discussion on how AI is reshaping the cybersecurity ecosystem

Session II - Scholars Forum

Total of 10 Selected students and research scholars will present their perspectives on the proposed sub-themes and measures necessary for responsible digital governance

Session III - Concluding Dialogue

"Building a Secure, Responsible & Rights-Respecting Digital Future"

"the FORUM will encourage "

- Participant-led discussions beyond conventional viewpoints
- Exchange of ideas, research and best practices from across disciplines
- Collaboration between students, scholars, academicians, legal professionals and technologists
- Insightful conversations on how legal systems, institutions and society can respond to emerging technologies
